

CONNECTED ALARM

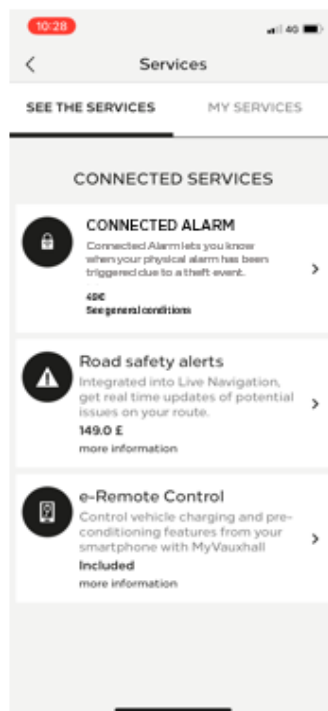

SUBSCRIPTION/ ASSOCIATION / ACTIVATION

To activate Connected Alarm for your vehicle, please follow this guide.

1. Ensure you have a valid MyVauxhall account and that your VIN has been added to your account. If you haven't yet installed the mobile app on your smartphone, you can easily do so by downloading the app from Google Play Store or Apple App Store.

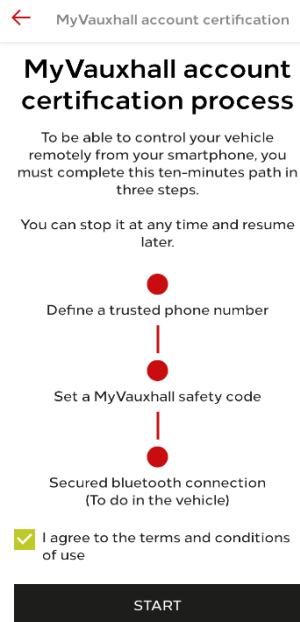

2. Log into your MyVauxhall, click on the vehicle icon on the bottom right and visit the Services store section. Select “Discover” and click on “Connected Alarm”.

You will be redirected on the Service Subscription page, where you will find information and benefits of the Connected Alarm features. Click on “GET” to continue the subscription process.

Please make sure that you have read and accepted the General Terms and Conditions by ticking the acceptance box. Then START the process. Tap on “START ACTIVATION” and follow the steps to subscribe to your new service

You can now define and save your preferences. There are three steps to complete and the process should take around 10 minutes.

Step 1: Enter your phone number and enter the 6-digit code that you should have received via SMS

✗ Trusted phone number

Define a trusted phone number

This telephone number will allow us to identify you in a secure way. It will be useful to ask you for confirmation of any secured operation.

START

← Trusted phone number

Enter your trusted telephone number.

Step 2 : Create your personal 4-digit Security Code.

You will first receive a 9-digit code via SMS. Enter this code in the app. That will allow you to then create your own security code (4-digit). With this code you will be able to access your vehicle remotely and to use all the Connected Alarm features.

← MyVauxhall account certification

MyVauxhall account certification process

To be able to control your vehicle remotely from your smartphone, you must complete this ten-minutes path in three steps.

You can stop it at any time and resume later.

Step 3: Connect your mobile phone to your vehicle using Bluetooth.
 You must be in your vehicle to complete this step.
 Switch on your vehicle engine and activate the Bluetooth function on your mobile phone.
 Click on "PAIR" to start the association.
